Prepared November 2026

Part 1 — Marketing Strategy

Positioning

"Clean, pest-free spaces — done properly the first time." OnPoint is the dependable, professional option for offices and homes that want visible results, safe chemicals and a team that shows up on time.

Target audiences

Audience	What they worry about	What we tell them
Offices, schools, clinics, restaurants	Health inspections, staff sick days, client impressions	Regular contract cleaning that keeps you inspection-ready
Homeowners & tenants	Cockroaches, bedbugs, rats, termites	Fast, safe fumigation that works the first time
Landlords, estate agents, Airbnb hosts	Move-in/move-out turnaround, tenant complaints	Same-week deep cleans and pest treatment between tenants
Warehouses, food processors	Pest audits, stock damage	Scheduled pest-control programmes with service certificates

Brand voice

Friendly, reassuring, practical. Short sentences. Show results; don't just describe them. Never use gross-out images without a solution next to them.

Content pillars

1. **Proof (35%)** — before/after photos, transformation reels, job walk-throughs
2. **Education (30%)** — pest signs, hygiene tips, myth-busting, checklists
3. **Trust (20%)** — team, training, safety, chemicals used, testimonials

4. **Offers & calls to action (15%)** — bookings, free assessment, seasonal pushes
